Addendum

The article entitled "Insights from Neuroscience towards Investment Decision Making" by Anum Khan, Syed Muhammad Noaman Ahmed Shah, and Muhammad Shujaat Mubarik **has been retracted** from *Economic Research Guardian* with the approval of the Editor-in-Chief.

Reason for retraction: a post-publication co-authorship dispute between the first and second authors.

Note regarding the third author - Muhammad Shujaat Mubarik: we emphasize that the authorship dispute arose solely between the first and second authors!

The third above mentioned author was not a party to that dispute. Therefore, no allegation of research or academic misconduct was made against the third author.
